|                           |                                                                                                                                |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Base Regulation           | Legal Metrology (Packaged Commodities) Rules, 2011                                                                             |
| Rule Set Version          | Current consolidated rule set (seeded)                                                                                         |
| Effective Date            | 2026-09-04                                                                                                                     |
| Applicable Amendments     | Legal Metrology (Packaged Commodities) (Amendment) Rules, 2017, Legal Metrology (Packaged Commodities) (Amendment) Rules, 2022 |
| Rule Engine Configuration | RE-2.0                                                                                                                         |
| Rules Evaluated           | 20                                                                                                                             |

5. FINAL INSPECTION ASSESSMENT

Automated (rule-engine) result: **COMPLIANT** — final assessment recorded by the inspector.

6. COMPLIANCE SUMMARY

|                          |    |
|--------------------------|----|
| Rules Checked            | 20 |
| Compliant                | 20 |
| Non-Compliant            | 0  |
| Manual Review            | 0  |
| Potential Non-Compliance | 0  |

7. CONFIRMED FINDINGS

None recorded.

9. FONT & READABILITY ASSESSMENT

|                        |   |
|------------------------|---|
| Declarations Analysed  | 5 |
| Readability Acceptable | 0 |
| Manual Review Required | 0 |

|                  |   |
|------------------|---|
| Potential Issues | 0 |
|------------------|---|

Font assessment uses relative height estimates. Physical (mm) measurement requires a calibration reference and is therefore not claimed automatically.

10. PLACEMENT / FORMAT ASSESSMENT

|                      |   |
|----------------------|---|
| Declarations Checked | 3 |
| Passed               | 3 |
| Review Required      | 0 |

11. EVIDENCE SUMMARY

| Evidence | Source       | Finding | Status    |
|----------|--------------|---------|-----------|
| EVD-001  | IMG-00128-01 |         | available |
| EVD-002  | IMG-00128-02 |         | available |
